## SKILLS

---

**Languages** - JavaScript, HTML, CSS, Node, Express, React, Python, SQL

**Tools** - VSCode, Git, Docker, Kubernetes, Ansible, Terraform

**Software & Platforms** - Linux, Amazon Web Services, Azure, Google Cloud, Nginx, Apache

## EXPERIENCE

---

**Website Administrator** - *Guildford Golf & Country Club*

JANUARY 2023 - PRESENT

- Implemented new updates and features based on company's requirements using WordPress
- Conducted regular audits of the website to ensure all information was up-to-date and accurate, and made necessary updates and revisions to improve user experience
- Optimized hyperlink management by consolidating multiple links into a single block to eliminate unnecessary clutter

**PROJECTS** - <https://github.com/chrismok17>

---

**OpenLab Scheduler** - *React, Node, MySQL, Docker*

- Led team in designing, developing, and documenting a full stack web app for BCIT's Nursing program, serving faculty and up to 900 students
- Guided team members, ensuring requirements understanding, error troubleshooting, and clear communication
- Key role in designing MySQL database, creating API endpoints, and writing Docker Files
- Implemented separate faculty and student views for schedule management and notifications

**Korean Drama Watchlist** - *React*

- Developed a React app to search and add Korean Dramas to user's watchlist
- Integrated movie database API, filtering results by language and rendering details
- Utilized state management to save watchlist in browser's local storage

**Rate My Iced Cap** - *Laravel, SQLite, Bootstrap*

- Built an Iced Cap review site with Laravel, SQLite, and Bootstrap for a group of friends
- Created API controller for seamless front-end, back-end, and SQLite database interactions
- Implemented a system that allows users to upload an image and leave a review on images

## EDUCATION

---

**British Columbia Institute of Technology**

Computer Information Technology Diploma, 2023
