EXPERIENCE

Website Administrator – *Guildford Golf & Country Club*

JANUARY 2023 - PRESENT

- Created and edited new pages using WordPress
- Managed website content updates and features based on user requirements

Line Cook – *Canucks Sports & Entertainment*

SEPTEMBER 2018 - SEPTEMBER 2021

- Lead the grill station during preparation and service for up to 750 people per night
- Adapted quickly to changing situations during service, including sudden menu changes and unexpected rush periods, to ensure smooth operations

PROJECTS - *https://github.com/chrismok17*

OpenLab Scheduler – *Industry Sponsored Student Project*

- A full stack web application to be used by the faculty and up to 900 students per year of BCIT's Nursing program
- Built using React, Node, MySQL and deployed with Docker
- Includes a faculty and student view – faculty can add/edit the schedule and create notifications while the student can view them

Korean Drama Watchlist – *Personal*

- A React application to search and add Korean Dramas to the user's watchlist
- Queries the movie database API and filters the results based on language
- Watchlist is saved using state management and local storage

Vacation Calendar – *Personal*

- A full stack web application used to keep track of vacation plans
- Built using JavaScript, HTML, CSS for the frontend, Node and MongoDB for the backend and EJS to render
- Created several APIs to add, update or delete events in the database
